## POWERTRAIN SUPPLIERS BY PRODUCT CATEGORY

### About this Listing:
Companies that supply products to the powertrain aftermarket are listed in alphabetical order. Because data changes frequently, only organizations that have updated information with Transmission Digest in the recent past are included. Every precaution has been taken in the preparation of these listings, however, the publisher assumes no liability for errors or omissions.

Bracketed codes, where available from the supplier, show additional information:
- M=Manufacturer, R=Remanufacturer, D=Distributor, L=Light Duty, H=Heavy Duty, O=OEM New, A=Aftermarket New, P=Professional, S=Service, 
- R=Remanufactured, C=Cores, U=Used
- Items in RED are marketed only via distributors

Companies that supply products to the powertrain aftermarket are listed in alphabetical order. Because data changes frequently, only organizations that have updated information with Transmission Digest in the recent past are included. Every precaution has been taken in the preparation of these listings, however, the publisher assumes no liability for errors or omissions.
